The K9 30 LED Gives

**ULTIMATE** POWER • CONTROL • PERFORMANCE

A. High efficiency 30 LED ultra bright power LED head. Fully focusable 3-stage optics, full flood to full spot beam. Zero maintenance, 50,000 hour LED array.

B. Full tension clamping handle prevents any movement of head release clamp to allow 360° movement.

C. Variable section integrally stowed 6ft mast. Quick Loc connection allows near instant setup.

D. Waterproof membrane panel for head controls: • Battery status  
   • Brightness  
   • Mode selection  
   • On / Off

E. Ruggedised internal steel chassis gives massive strength and rigidity. Impact absorbing outer casing tested in all temperatures and environments. Comfort carry handle connects straight to internal chassis to distribute load.

F. Integral tripod stabiliser legs give a sturdy stable base for mast at full extension.
Daylight bright 6500K light source. Concentrated into power beam or filtered by holographic lens to flatten light as required. Infinitely variable in-between.

**Construction**

The K9 30 LED uses impact absorbing long life polymers for outer body chassis in conjunction with a steel inner support chassis for full containment and protection of the unit.

- Thermal management system to maximise performance in all environments
- Comfort grip for carrying connects to battery chassis for own load distribution
- Heavy duty full retracting spiral extension cable - no need for additional extension cables which could get lost

**Recharge**

4 hours from full discharge

**Chargers**

- Single standard charger - 8 hours
- Boost charger - 4 hours
- 5 bank charger - 4 hours

**Specification**

- Weight - 11.8kgs
- Dimensions (Stowed: L 390 x W 195 x H 255mm)
OPTIONAL EXTRAS

Integrated Vepac vehicle charging system. Full recharge from connection to a vehicle supply. K9 30 LED never needs to leave the vehicle. Intelligent supply sense prevents over discharge of vehicle source battery.

AMF - Mains failure detection system switches on all equipped K9 30 LED’s in power outage. Simply plug into the supply that needs maintaining. (All plug types available)

Remote control + mesh network module. Duplicates all functions of LED controls. Allows remote operation and relay of remote commands.

Solid clamping interlocking extension poles. Quick fit for additional height.
